

Table 2: Company Insolvencies in all sectors, United Kingdom, 1 January 2015 to 30 April 2025

Numbers in this table are based on the address on the Companies House register at the time of insolvency.

This is often the address of an insolvency practitioner handling the case and therefore it is not necessarily the region in which companies traded prior to insolvency.

Bulk creditors' voluntary liquidations between 2016 and 2019 are included in this table. See the Section 16 part of the main response for more information.
